SECOND QUARTER 2018 FINANCIALS

Shipping revenues for the second quarter of 2018 of \$67.2 million compared to shipping revenues of \$86.3 million in the second quarter of 2017. NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED JUNE 30, 2018

Note 1 – General information

DHT Holdings, Inc. (“DHT” or the “Company”) is a company incorporated under the laws of the Marshall Islands whose shares are listed on the New York Stock Exchange. The Company’s principal executive office is located at Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda. The Company is engaged in the ownership and operation of a fleet of crude oil carriers.

The financial statements were approved by the Company’s Board of Directors (the “Board”) on August 6, 2018 and authorized for issue on August 7, 2018.

Note 2 – General accounting principles

The condensed consolidated interim financial statements do not include all information and disclosure required in the annual financial statements and should be read in conjunction with DHT’s audited consolidated financial statements included in its Annual Report on Form 20-F for 2017. Our interim results are not necessarily indicative of our results for the entire year or for any future periods.

The interim condensed financial statements have been prepared in accordance with IAS 34 “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”).

The interim condensed financial statements have been prepared on a historical cost basis, except for derivative financial instruments that have been measured at fair value. The accounting policies that have been followed in these interim condensed financial statements are the same as presented in the 2017 audited consolidated financial statements.

These interim condensed consolidated financial statements have been prepared on a going concern basis.

Application of new and revised International Financial Reporting Standards (“IFRSs”)

New and revised IFRSs, and interpretations mandatory for the first time for the financial year beginning January 1, 2018 are listed below. With the exception of IFRS 15, the adoption did not have any effect on the financial statements:

IFRS 9 Financial Instruments
IFRS 15 Revenue from Contracts with Customers
Amendments to IFRS 2 Classification and Measurement of Share-based Payment Transactions
Annual Improvements to IFRS Standards 2014-2016 Cycle
IFRIC 22 Foreign Currency Transactions and Advance Consideration

Adoption of IFRS 15 Revenue from Contracts with Customers

Effective from January 1, 2018, we adopted the new accounting standard IFRS 15 *Revenue from Contracts with Customers* using the modified retrospective method. We recognized the cumulative effect of initially applying the new revenue standard as an adjustment to the opening balance of accumulated deficit. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods.

For vessels operating on spot charterers, voyage revenues are, under the new revenue standard, recognized ratably over the estimated length of each voyage, calculated on a load-to-discharge basis. Voyage expenses are capitalized between the previous discharge port, or contract date if later, and the next load port if they qualify as fulfillment costs under IFRS 15. To recognize costs incurred to fulfil a contract as an asset, the following criteria shall be met: (i) the costs relate directly to the contract, (ii) the costs generate or enhance resources of the entity that will be used in satisfying performance obligations in the future and (iii) the costs are expected to be recovered. Reference is also made to note 2 in the Annual Report on Form 20-F for 2017.

Time charters continue to be accounted as operating leases in accordance with IAS 17 and related interpretations and the implementation of the new revenue standard therefore did not have an effect on income recognition from such contracts.

The cumulative effect of the adjustments made to our condensed consolidated statement of financial position at January 1, 2018 from the adoption of IFRS 15 *Revenue from Contracts with Customers* was as follows:

Voyage expenses are capitalized between the previous discharge port, or contract date if later, and the next load port and amortized between load port and discharge port. The closing balance of assets recognized from the costs to obtain or fulfil a contract was \$2.6 million as per June 30, 2018. During second quarter of 2018, \$0.8 million was amortized and no impairment losses were recognized in the period.

IFRS 15 requires disclosure on the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied (or partially unsatisfied) as of the end of the reporting period and an explanation of when an entity expects to recognize these amounts as revenue. We have applied the practical expedient related to performance obligation with reference to IFRS 15:121 (a), as the original expected duration of the underlying contract is one year or less. Consequently, no disclosure is presented in the notes to the interim condensed consolidated financial statements.

According to IFRS 15:114 an entity shall disaggregate revenue recognized from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. DHT's business is to operate a fleet of crude oil tankers and management has organized the entity as one segment based upon on the service provided. Consequently, the Company does not disaggregate revenue recognized from contracts with customers.

Note 3 – Segment reporting

Since DHT's business is limited to operating a fleet of crude oil tankers, management has organized the entity as one segment based upon the service provided. Consequently, the Company has one operating segment as defined in IFRS 8, Operating Segments.

As of June 30, 2018, the Company had 27 vessels in operation; 8 vessels were on time charters and 19 vessels operating in the spot market.

Refinancing

In April we entered into a \$484 million secured credit facility agreement for the refinancing of 13 of the Company's VLCCs. The following credit facilities were refinanced: Nordea Samco Credit Facility (DHT Sundarbans, DHT Taiga, DHT Redwood, DHT Hawk, DHT China, DHT Falcon and DHT Condor) \$215.2 million, Nordea/DNB Credit Facility (DHT Leopard) \$44.4 million, ABN Amro Credit Facility (DHT Lion, DHT Panther and DHT Puma) \$118.4 million and the undrawn DNB/Nordea Credit Facility (DHT Bronco and DHT Mustang) \$82.5 million. We also entered into an agreement with ABN Amro to increase the Company's revolving credit facility to \$57.3 million from the current availability of \$43.4 million. Both credit facilities are described below.

ABN Amro Credit Facility

In April 2018 we entered into a credit facility with ABN Amro, Nordea, Credit Agricole, DNB, ING, Danish Ship Finance, SEB, DVB and Swedbank as lenders and DHT Holdings, Inc. as guarantor for the financing of eleven VLCCs and two newbuildings. Borrowings bear interest at a rate equal to Libor + 2.40% and the loan is repayable in quarterly installments of \$7.0 million through Q2 2024 and a final payment of \$212.2 with the last installment. When the facility is fully drawn, the quarterly installments will be \$8.3 million with a final payment of \$284.8 million in the second quarter of 2023.

The credit facility contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- Value adjusted* tangible net worth of \$300 million
- Value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- Unencumbered consolidated cash of at least the higher of (i) \$30 million and (ii) 6% of our gross interest bearing debt

* Value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).

Credit Agricole Credit Facility

In June 2015 Samco Gamma Ltd and DHT Tiger Limited entered into a credit agreement with Credit Agricole for the financing of the Samco Scandinavia and the newbuilding DHT Tiger that was delivered in January 2017. In June 2016 we made a voluntary prepayment of \$5.0 million and the financing of the Samco Scandinavia is repayable with 30 quarterly installments of \$0.97 million each. The \$48.7million financing of DHT Tiger was drawn in 2016 in advance of the delivery of the DHT Tiger which took place in January 2017 and is repayable in quarterly installments of \$0.7 million with a final payment of \$29.7 in December 2023. The loan bears interest at Libor plus a margin of 2.1875%. The credit agreement is guaranteed by DHT and contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- Value adjusted* tangible net worth of \$200 million
- Value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- Unencumbered consolidated cash of at least the higher of (i) \$20 million and (ii) 6% of our gross interest bearing debt

** Value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).*

Danish Ship Finance Credit Facility

In November 2014 we entered into a credit facility totaling \$49.4 million with Danish Ship Finance ("DSF") as lender and DHT Holdings, Inc. as guarantor for the financing of the VLCC newbuilding DHT Jaguar delivered in Q4 2015. The full amount of the credit facility was drawn in November 2015. Borrowings bear interest at a rate equal to Libor + 2.25% and are repayable in 10 semiannual installments of \$1.3 million each from May 2016 to November 2020 and a final payment of \$36.4 million in November 2020. The credit facility contains a covenant requiring that at all times the charter-free market value of the vessel that secure the credit facility be no less than 130% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- Value adjusted* tangible net worth of \$300 million
- Value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- Unencumbered consolidated cash of at least the higher of (i) \$30 million and (ii) 6% of our gross interest bearing debt

** Value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).*

Nordea/DNB Credit Facility

In October 2015 we entered into a credit facility totaling \$50.0 million with Nordea and DNB as lenders and DHT Holdings, Inc. as guarantor for the financing of the VLCC newbuilding DHT Leopard delivered in Q1 2016. The full amount of the credit facility was drawn on December 29, 2015 in advance of the delivery of the DHT Leopard on January 4, 2016. Borrowings bear interest at a rate equal to Libor + 2.25% and are repayable in 20 quarterly installments of \$0.625 million from March 2016 to December 2020 and a final payment of \$37.5 million in December 2020. In April 2018, DHT Leopard was refinanced as part of the ABN Amro Credit Facility. In September 2016, the four vessels financed by RBS (DHT Ann, DHT Chris, DHT Cathy and DHT Sophie) were included in the credit facility as a separate tranche totaling \$40.0 million. Borrowings under the \$40.0 million tranche bear interest at a rate equal to Libor + 2.75% and are repayable in 11 quarterly installments of \$2.1 million from December 2016 to June 2019 and a final payment of \$17.3 million in August 2019. Subsequent to the sale of DHT Chris which was delivered to the buyers in January 2017 and the sale of the DHT Ann which was delivered to the buyers in May 2017, the separate tranche is repayable in quarterly installments of \$0.4 million and a final payment of \$6.9 million in August 2019. The credit facility contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- Value adjusted* tangible net worth of \$300 million
- Value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- Unencumbered consolidated cash of at least the higher of (i) \$30 million and (ii) 6% of our gross interest bearing debt

** Value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).*

Nordea BW VLCC Acquisition Credit Facility

\$204 million of the \$300 million credit facility was borrowed during the second quarter of 2017 in connection with delivery of the nine VLCCs in water from BW. The final \$96 million was borrowed in connection with the delivery of the two VLCC newbuildings from DSME in the second quarter of 2018. The credit facility is guaranteed by DHT Holdings, Inc., borrowings bear interest at a rate equal to Libor + 2.40%. Subsequent to the sale of the DHT Utah and DHT Utik and the delivery of DHT Stallion and DHT Colt, the current outstanding is repayable in quarterly installments of \$5.4 million with a final payment of \$156.3 million in the second quarter of 2023. The credit facility contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- Value adjusted* tangible net worth of \$300 million
- Value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- Unencumbered consolidated cash of at least the higher of (i) \$30 million and (ii) 6% of our gross interest bearing debt

** Value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).*

ABN Amro Revolving Credit Facility

The financing bears interest at a rate equal to Libor + 2.50%. In April 2018, we entered into an agreement with ABN Amro to increase the revolving credit facility to \$57.3 million with a quarterly reduction of \$1.8 million starting July 31, 2018. The credit facility contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

As of the date of our most recent compliance certificates submitted to the banks, we are in compliance with our financial covenants.

Note 5 – Vessels

The carrying values of our vessels may not represent their fair market value at any point in time since the market prices of second-hand vessels tend to fluctuate with changes in charter rates and the cost of constructing new vessels. Historically, both charter rates and vessel values have been cyclical. The carrying amounts of vessels held and used by us are reviewed for potential impairment or reversal of prior impairment charges whenever events or changes in circumstances indicate that the carrying amount of a particular vessel may not accurately reflect the recoverable amount of a particular vessel. The Company is of the view that there were no events or changes in circumstances indicating that the carrying amount of a particular vessel may not accurately reflect the recoverable amount of a particular vessel as of June 30, 2018.

NOTE 6 – Equity and Convertible Bond Offerings

Convertible Senior Note Offering

On September 16, 2014 we completed a private placement of \$150 million aggregate principal amount of convertible senior notes due 2019 (the “Notes”). DHT will pay interest at a fixed rate of 4.5% per annum, payable semiannually in arrears. Net proceeds to DHT were approximately \$145.9 million after the payment of placement agent fees. The value of the conversion right has been estimated to \$21.8 million; hence \$21.8 million of the aggregate principal amount of \$150.0 million was classified as equity. The Notes will be convertible into common stock of DHT at any time after placement until one business day prior to their maturity. The initial conversion price was \$8.125 per share of common stock (equivalent to 18,461,538 shares of common stock), and is subject to customary anti-dilution adjustments. As a result of the cumulative effect of previously announced cash dividends, the conversion price was adjusted to \$6.2599 effective May 18, 2018. Based on the adjusted conversion price and after adjusting for the repurchase of \$44.2 million of the convertible senior notes in the open market at an average price of 94.5% of par, the total number of shares to be issued would be 16,905,409.

We have concluded that the adjustment of the conversion rate upon the payment of cash dividends does not result in an accounting entry as the liability and equity components of the instrument are not re-measured as a result of the cash dividend. This is based on the fact that we have determined that the Notes are non-derivative financial instruments that contain both liability and equity components. The financial liability is the contractual obligation to make interest and principal payments and the equity component is the right of the holders of the Notes to convert the Notes into a fixed number of the Company's common shares. In accordance with IAS 32, the liability component was measured first and is recorded at its amortized cost over the life of the instrument. The equity component was assigned the residual amount after deducting the amount separately determined for the liability component. The equity component was recorded as part of additional paid-in capital and is never re-measured.

The determination that the conversion feature is an equity instrument (rather than a derivative liability accounted for under IAS 39) was made on the basis that there is no variability in the number of equity instruments delivered upon conversion (i.e. the exchange meets the “fixed for fixed” requirements set forth under IAS 32). In making the determination, the Company considered that the Notes contain a mechanism whereby the conversion rate of the Notes is adjusted for cash dividends paid by the Company. Although this adjustment results in variability in the number of common shares delivered, the fact that this variability serves to maintain the relative economic rights of the holders of the Notes results in no violation of the “fixed for fixed” requirement.

Note 9 in the 2017 annual report on Form 20-F provides for details of financial risk management objectives and policies.

The Company's principal financial liability consists of long-term debt with the main purpose being to partly finance the Company's assets and operations. The Company's financial assets mainly comprise cash. The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks.

Note 10 – Subsequent events

On August 6, 2018 the Board approved a dividend of \$0.02 per common share related to the second quarter 2018 to be paid on August 31, 2018 for shareholders of record as of August 24, 2018.

In August, the Company entered into 5-year interest rate swaps with Nordea totaling \$168.8 million with an average fixed rate of 3.01% - as compared to current 3m Libor of about 2.34%. \$168.8 million equals 22% of total outstanding bank mortgage debt.

On July 27, 2018 the Company took delivery of the first of its two VLCC newbuildings from HHI. The vessel is named the DHT Bronco. A total of \$51.4 million of debt was drawn in connection with the delivery.

In July, the Company entered into agreements to install exhaust gas cleaning systems, also known as scrubbers, on twelve of its VLCCs. The Company has entered into agreement with Alfa Laval to supply the systems and has also secured shipyard capacity to install all systems within 2019. These twelve systems will come in addition to the two systems being installed on the newbuildings DHT Bronco, delivered in July 2018, and DHT Mustang set for delivery from Hyundai Heavy Industries ("HHI") in Q3 2018. The Company has received proposals to finance the majority of the project with debt and is confident to conclude this in the near future.
