We reported shipping revenues for the second quarter of 2015 of \$82.9 million compared to shipping revenues of \$19.4 million in the second quarter of 2014. The increase from the 2014 period to the 2015 period was due to an increase in the fleet including the addition of seven vessels through the Samco acquisition in September 2014 and a stronger market.

Voyage expenses for the second quarter of 2015 were \$14.8 million, compared to voyage expenses of \$4.9 million in the second quarter of 2014. The increase was mainly due to an increase in the fleet and an increase in the number of vessels operating in the spot market.

*Commencing with the second quarter of 2016, subject to a free cash flow calculation, we will be required to pay installments under the RBS credit facility equal to free cash flow (after adjusting for capital expenditures for the next two quarters) for DHT Maritime, Inc. during the preceding quarter, capped at \$7.5 million per quarter.

Nordea/DNB/DVB – six Samco vessels and DHT Condor

In December 2014 we entered into a credit facility in amount of \$302.0 million with Nordea, DNB and DVB as lenders, and DHT Holdings, Inc. as guarantor for the re-financing of the financing of Samco Europe, Samco China, Samco Amazon, Samco Redwood, Samco Sundarbans and Samco Taiga as well as the financing of the DHT Condor. Borrowings bear interest at a rate equal to Libor + 2.50% and are repayable in 20 quarterly installments of \$5.1 million from March 2015 to December 2019 and a final payment of \$199.8 million in December 2019. The credit facility is guaranteed by DHT and contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- value adjusted* tangible net worth of \$200 million
- value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- unencumbered consolidated cash of at least the higher of (i) \$20 million and (ii) 6% of our gross interest bearing debt

*value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).

DNB – DHT Falcon and DHT Hawk

In February 2014 we entered into a credit facility for up to \$50.0 million with DNB, as lender, and DHT Holdings, Inc. as guarantor for the financing of the acquisition of the two vessels, DHT Falcon and DHT Hawk. Commencing in June 2015 borrowings bear interest at a rate equal to Libor + 2.50%, down from Libor + 3.25%. The loan is repayable in 20 quarterly installments of \$1.0 million from May 2014 to February 2019 and a final payment of \$29.0 million in February 2019. The credit facility is guaranteed by DHT and contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- value adjusted* tangible net worth of \$150 million
- value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- unencumbered consolidated cash of at least the higher of (i) \$20 million and (ii) 6% of our gross interest bearing debt

*value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).

RBS – DHT Maritime, Inc.

In April 2013 the Company's wholly owned subsidiary, DHT Maritime, Inc., amended its credit agreement with the Royal Bank of Scotland ("RBS") whereby the minimum value covenant has been removed in its entirety. Furthermore, the installments scheduled to commence in 2016 have been changed from a fixed \$9.1 million per quarter to a variable amount equal to free cash flow in the prior quarter – capped at \$7.5 million per quarter. Free cash flow is defined as an amount calculated as of the last day of each quarter equal to the positive difference, if any, between: the sum of the earnings of the vessels during the quarter and the sum of ship operating expenses, voyage expenses, estimated capital expenses for the following two quarters, general & administrative expenses, interest expenses and change in working capital. The next scheduled installment would at the earliest take place in Q2 2016. In connection with the prepayment of the DVB loan for DHT Phoenix in June 2015, we were required to prepay \$2.8 million under the RBS facility (a proportionate amount of the RBS facility relative to the Company's total debt). As of June 30, 2015 the total outstanding under the RBS credit facility is \$110.4 million with final maturity in July 2017. In April 2013 the Company made a prepayment of \$25 million and the margin has increased to 1.75%. DHT Maritime's financial obligations under the credit agreement are guaranteed by DHT Holdings, Inc.

DHT Phoenix

In June 2015 we prepaid the total outstanding under the DHT Phoenix credit facility amounting to \$17.1 million.

DHT Eagle

The DHT Eagle credit facility contains financial covenants related to the borrower as well as DHT on a consolidated basis. DHT covenants that, throughout the term of the credit agreement, DHT on a consolidated basis shall maintain unencumbered cash of at least \$20 million, value adjusted tangible net worth of at least \$100 million and value adjusted tangible net worth of no less than 25% of the value adjusted total assets.

Credit Agricole - Samco Scandinavia and DHT Tiger

In June 2015, Samco Gamma Ltd and DHT Tiger Limited entered into a credit agreement with Credit Agricole for the financing of the Samco Scandinavia and the newbuilding DHT Tiger expected to be delivered in October 2016. As of June 30, 2015 the total outstanding under the Credit Agricole credit facility is \$38.8 million related to the Samco Scandinavia. The current outstanding under the credit facility is repayable with 34 quarterly installments of \$1.1 million each. The loan bears interest at Libor plus a margin of 2.1875% and includes a covenant that the charter-free value of the vessel shall be at least 135%. The credit facility is guaranteed by DHT and contains a covenant requiring that at all times the charter-free market value of the vessels that secure the credit facility be no less than 135% of borrowings. Also, DHT covenants that, throughout the term of the credit facility, DHT, on a consolidated basis, shall maintain:

- value adjusted* tangible net worth of \$200 million
- value adjusted* tangible net worth shall be at least 25% of value adjusted total assets
- unencumbered consolidated cash of at least the higher of (i) \$20 million and (ii) 6% of our gross interest bearing debt.

*value adjusted defined as an adjustment to reflect the difference between the carrying amount and the market valuations of the Company's vessels (as determined quarterly by an approved broker).

As of the date of our most recent compliance certificates submitted to the banks, we remain in compliance with our financial covenants.

As of June 30, 2015, DHT has five interest rate swaps totaling \$191.9 million with maturity ranging from the first quarter of 2017 to the second quarter of 2018. The fixed interest rates range from 2.43% to 3.57%. As of June 30, 2015, the fair value of the derivative financial liability related to the swaps amounted to \$8.1 million.

As of June 30, 2015, the Company had entered into firm commitments for the debt financing of all six of its newbuildings ordered at HHI. The financing which will be drawn at delivery of the vessels equals about 50% of the contract prices with an average margin above Libor of 2.4%.

Note 6 – Vessels

The carrying values of our vessels may not represent their fair market value at any point in time since the market prices of second-hand vessels tend to fluctuate with changes in charter rates and the cost of constructing new vessels. Historically, both charter rates and vessel values have been cyclical. The carrying amounts of vessels held and used by us are reviewed for potential impairment or reversal of prior impairment charges whenever events or changes in circumstances indicate that the carrying amount of a particular vessel may not accurately reflect the recoverable amount of a particular vessel. The Company is of the view that there were no events or changes in circumstances indicating that the carrying amount of a particular vessel may not accurately reflect the recoverable amount of a particular vessel as of June 30, 2015.
